React.Js etc

## PROFILE

Enthusiastic and dedicated Computer Science student at Southeast University with a strong foundation in programming and web development. Skilled in HTML, CSS, JavaScript, Python, and Java, with hands-on experience building responsive websites and personal projects. Actively learning full-stack web development through online courses and continuously improving coding skills through practice. Passionate about problem-solving, teamwork, and building real-world applications. Eager to contribute to software development teams through internships or junior-level opportunities.

## EXPERIENCE

### Projects:

#### **Portfolio Website**

- Developed a personal website using HTML, CSS, and JS; deployed via GitHub Pages.

#### **Hospital Management System (Team Project)**

- A web-based project for appointment booking and patient data management.

#### **Job Tracker App**

- Created a responsive app to add, edit, and filter job applications by status, using React hooks and local Storage for data persistence. Practicing regularly with mini-projects on GitHub

Learning Data Science (in progress)

#### **Expense Tracker App**

- Built a user-friendly desktop app using Python and Tkinter to add, edit, and track daily expenses. Used JSON for data storage and PyInstaller to generate a standalone .exe file for offline use.
